

Materials Use Survey

Directions:

First make sure that the materials you list for this survey match the ones your class decided to ask about.

1. Write the name of the material in column 1.
2. Write the number of times a month you use it in column 2.
3. Turn in surveys to your teacher so you can collect and analyze the results as a class.

Remember: In general recycling, composting and packaging do not count as “using” the material.

Name of person responding to the survey:

	Name of Material	How many times a month do you use this material? (0-30)
Baseline (Traditional Packaging)	Packing Peanuts/Bubble Wrap, etc.	
Material 1		
Material 2		
Material 3		
Material 4		
Material 5		
Material 6		
Material 7		
Material 8		
Material 9		
Material 10		

Tip: As a class, make this an online survey and share it with friends and family to get a greater number of responses.
