Pre-Visit Journal		

Vocabulary

Cut out these vocabulary definitions. Then match and paste them with the words on pages 1 and 2.

Something we can describe using our five senses	A state of matter that has its own defined shape, weight, and volume (Examples: plastic, metal, wood)
Everything around you that takes up space	Physical characteristics of an object
A state of matter that does not have its own defined shape, weight, or volume. (Examples: oxygen, air)	A state of matter that does not have its own shape but takes the shape of the container it is in. It has its own defined weight and volume. (Examples: milk, water)

Post-Visit Journal	Pre-Visit Journal
<u>- </u>	

States of Matter Sorting

Cut out the images from pages 10 and glue them in the matching boxes.
