7. Design Sheet Template

When brainstorming, it often helps to create a design sheet for each idea so that you can keep track of your ideas and add them to your journal.

*This is a sample template for a design sheet. Feel free to create your own.*

Design Sheet # ______

Design Name: ________________________________________________________________

Designer: _____________________________________________________________________

Pros       Cons
________________________________________  ________________________________________
________________________________________  ________________________________________
________________________________________  ________________________________________

How would this design work?

Questions and challenges:
